

Heather Maze is the 7th grade IRC (Inter Related Classroom) teacher at Hiawatha Middle School. She currently is in her 6th year of teaching and has been teaching for the past four years for Brown County Special Education Interlocal. She currently is finishing her Master's Degree from Emporia State University and received her Bachelors degree from Kansas State University.

Mrs. Maze will be a part of the new MTSS (Multi Tiered Support System) program that will be implemented this year at the middle school. She is looking forward to the changes and exciting possibilities this will bring to the students. She and her colleagues will be working more students into the regular education classroom to improve the learning of all students. The combination of the regular education teachers working side by side with the special education teachers will make a powerhouse team driven to reach the needs of all students.

Mrs. Maze lives north of Hiawatha, with her husband, Nathan Maze, a Hiawatha High graduate and her two year old daughter Grace. She enjoys time with her family and working on their new house.
